WHY CHICAGO IS LOSING ITS TREES

The reformers of Chicago are responsible for the rapid disappearance of trees from the city streets. All of the trees were planted at the personal expense of householders. The reformers had a city ordinance passed by the City Council forbidding the planting of trees without a permit which the citizen would have to go to the City Hall and pay for. The tree owner is also prohibited by this ordinance from trimming or spraying his trees without paying for a City Hall permit. Hence in the name of graft and reform, city trees are dying off. A defunct daily newspaper that was devoted to daily reforms and that died of overwork in this direction was responsible for this outrageous ordinance on account of its influence with feeble minded aldermen.

## SIGN OF THE TEETH

An Alderman Proposes a Fitting Symbol for the Department of Public Service.

A well known alderman suggests that a double set of teeth, similar to some Halsted street dentist signs be adopted as a symbol for the Chicago Department of Public Service.

The alderman does not say whether the teeth are to be used on public utilities or on the public itself.

## NATIONAL SCHOOL OF MULTIGRAPHING A BUSINESS NECESSITY

The National School of Multigraphing, at 1103 Lytton Building, is of great value to the business community. The service that it gives saves hundreds of thousands of dollars to firms and individuals who use multigraphing in their business. And the number who use multigraphing is constantly on the increase.

Charles H. Lamson is one of Chicago's greatest paving experts.

Albert J. Hopkins, who made one of the best United States senators Illinois ever had, would make a great governor.

Judge Frank Johnston, Jr., is making a fine record on the Circuit Court bench.

## MAY FINE WOMEN WHO DO NOT VOTE

Con-Con Delegates Plan to Include Gentler Sex.

## TO ABOLISH CIVIL SERVICE

City of Chicago Measure Comes to Light as Revised Draft of Proposed Article of the Constitution.

Springfield.—The record in the United States shows that the average man was not anxious to permit women to vote, but they have all but obtained that country-wide privilege, and now a considerable number of constitutional convention delegates propose to compel women to vote in Illinois. If they don't, they are to be fined or disfranchised.

It is not put so bluntly. The plan is to require every citizen to vote, but the women do less voting than the men and so would be subject to many more penalties. The delegates are not accused of being after the women voters in particular, but it is the women who will be the heaviest hit if the compulsory voting plan is approved by the convention.

Considerable data has been collected by some of the delegates in countries where the scheme has been tried. A law was passed in Spain in 1907 requiring voting for elections to the national chamber of deputies and to the city councils. The punishments are publication of the names of the non-voters as censure and the adding of 2 per cent on the state tax until the violator votes. Repetition of the offense bars the citizens from public office.

Dr. Cesar Barja wrote for the Massachusetts con-con that the law had not cured the negligent voters.

Leo J. Frankenthal, vice consul in Bern in 1908, has written that the obligatory voting in five cantons of Switzerland has not been rigorously enforced.

Belgium appears to have been the most successful with compulsory voting, where it was introduced with universal suffrage in 1893. There the first offense draws a reprimand or a fine of 1 to 3 francs (20 to 60 cents). The second offense within six years is punishable by a fine of 20 to 25 francs. For the third offense in ten years the same fine. For the fourth offense within fifteen years the offender is ineligible for office for ten years, in addition to the fine.

Prof. Leon Dupriez, University of Louvain, asserts that "compulsory voting has been very successful."

In order that those favoring compulsory voting may practice what they preach, the convention adjourned last Friday until midweek, because of the general municipal elections held throughout the state on Tuesday.

A "revised" draft of a proposed article of the constitution, to be entitled "City of Chicago," has arrived in Springfield. It is from the special city council committee.

"It permits the city to abolish civil service, among other things," according to Professor Freund, legal adviser of the committee. Therefore it interests the public generally.

The section under which the city would acquire power to abolish civil service, according to Professor Freund, reads:

"Laws of the state relating to the organization of the government of the city of Chicago, to the distribution of its powers among the official agencies of the city and to the tenure and compensation of officials may be superseded in their application to the city by and under a charter or organic ordinance framed by an elective convention called as provided by city ordinance and adopted by the voters of the city, as provided by the convention or by and under amendments of said charter adopted as provided by said charter."

The point lies in the plan that state laws may be superseded by a city charter on the tenure and compensation of officials and the distribution of power among the official agencies of the city.

The bill of rights committee has been furnished with a statement by Sanford B. Horton of Chicago, concerning two measures now pending, one referring to the elimination of the name of Almighty God in the constitution, the other referring to a proposal providing for the compulsory reading of the Bible in the public schools of Illinois.

The compulsory reading of the Bible in the public schools was opposed by Mr. Horton on the ground that it would have to be decided by the public school authorities sooner or later which version of the Bible should be used in the schools.

Guards Against Diseased Plants. Reported discovery of the European corn borer among the crops of corn, broom corn and other plants in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York and Pennsylvania has led Gov. Lowden to forbid importation of such plants from those states, except under certain restrictions. The pest also is said to have been discovered in celery, green beans, beets, spinach, rhubarb, oats, rye straw, chrysanthemums, asters, cosmos, geraniums, gladioli and dahlias.

W. F. Cummings, the well known engineer and contractor, has made a fine record. His work is praised all over the country.

Robert M. Sweitzer is one of the few officials in public life without a blemish on his official record.

Judge George B. Holmes is gratifying his many friends with the fine record he is making on the Municipal court bench.

FREDERICK H. RAWSON.  
President of the Union Trust Company which has adopted a profit sharing plan for its employees.

## ALDERMEN PUT HIGH PRICE LOOP THEATERS IN SAME CLASS WITH LOW PRICE MOVIES

The city council should explain its action in putting the movie theaters in the same class with the loop "speaking" theaters.

The movies charge from 5 cents to 50 cents.

The loop "speakers" charge from \$3.50 to \$12.00, according to impulse.

The movies are a necessity and furnish pleasure and instruction for families.

The loop theaters are a luxury, and add to the high cost of living.

Pass fed aldermen do not look at the matter in this light.

Movies have no influence with the loop hounds.

So they have to suffer while the big price houses escape.

The new license fee schedule for theaters, including the movies, is graded both on seating capacity and admission charge, as follows:

Maximum seating capacity	Maximum price of admission	Maximum price of admission	Maximum price of admission	Maximum price of admission
250	\$2.00	\$2.50	\$3.00	\$3.50
